

# Trapeze Software Group, Cleveland, Ohio

Thinking in 360 Degrees. Making it Happen.

Trapeze Group (Trapeze) is an operating group of Constellation Software Inc. (Constellation) – a stable, international provider of market leading software and services to a number of industries across both the public and private sectors.

Founded in 1995, Constellation builds vertical market software businesses that provide mission-critical solutions for customers in those industries. The organization has more than 1,700 employees and the company is publicly traded on the TSX. As an operating group of Constellation, Trapeze is dedicated to providing technology solutions for the passenger transportation industry. With more than 850 customers in 15 countries, Trapeze understand the unique challenges of passenger transportation and deliver solutions that improve service while realizing efficiencies for transportation organizations.

The School Division of Trapeze Group, located in Cleveland, Ohio realizes that today's school transportation providers need to be agile, adaptive, responsive and very aware of costs. This is why Trapeze is leading the way in providing some of the most advanced and unique school transportation solutions in the market that ultimately hold safety and savings as a priority. Trapeze school solutions address the full 360 degrees of your operations going beyond core routing and scheduling functionalities by offering a one of a kind calendar based scheduling system designed for special education transportation and also by incorporating internet and telephony technologies to disseminate information both internally and externally. Trapeze leads the way in planned versus actual vehicle tracking software using GPS technology that is flexible with any hardware vendor. To come full circle, their offerings can also assist you in managing your fleet, drivers, employees and field trip requests.

*Trapeze solutions consider the full 360 degrees of your operations, integrating information across your organization and enabling you to deliver quality services to your stakeholders.*

*Our commitment to customers shows in the numbers...*

*Trapeze scores an average 4.X out of 5 with customers on its annual satisfaction survey.*

The Trapeze goal is to provide you with affordable, flexible solutions that promote the efficient use of resources while enabling safe, reliable, student transportation. In developing technology for student transportation, Trapeze maintains a strong and consistent customer focus, working to thoroughly understand your goals and operational requirements and delivering solutions that integrate your mission-critical information systems and data. Trapeze has over 1,000 School Transportation Software Users that transport approximately 3 million students and manage over 5 million students. Our staff averages over 10 years experience in the student transportation industry and have been involved in every aspect of transportation scheduling and management in the education sector.
